Ximena Alvarez Florez

Product Designer · B2B / SaaS

Product Designer specializing in complex B2B and SaaS products (Fintech & ATS). My approach combines product strategy with design execution to scale tech solutions. Currently, I lead legacy product refactoring initiatives and the evolutionary management of Design Systems, ensuring consistency and cross-functional efficiency between design and engineering teams. I leverage UX research and data analytics as a compass for decision-making—driving operational cost optimization and proven improvements in business metrics alongside overall usability.

Work Experience

UX Lead B2B — Magneto Empleos

Sep 2025 – Present | Medellin, Colombia

- Defined the B2B UX strategy, leading the core experience refactoring for recruiters and HR analysts.
- Managed and evolved the design system to guarantee consistency, scalability, and seamless handoff between design and development teams.
- Redesigned dashboards and bulk management tools to maximize operational efficiency for enterprise users.

UX/UI Designer – Magneto Empleos

Jul 2024 – Aug 2025 | Medellin, Colombia

- Designed user-centered end-to-end workflows for ATS processes in complex B2B environments.
- Developed and documented scalable, high-consistency design systems.
- Drove continuous product improvements guided by analytics and OKRs, aligning design deliverables with strategic business goals.

UX Designer – Sistecrédito

Oct 2022 – Jul 2024 | Envigado, Colombia

- Created high-fidelity interactive prototypes and end-to-end user flows for functional digital products.
- Led qualitative and quantitative UX research from discovery to iteration, including moderated/unmoderated usability testing, competitive benchmarking, and A/B testing.

Researcher & Educator - BID Pescaito Project

Oct 2020 – Jul 2021 | Santa Marta, Colombia

- Executed training and institutional support programs for Service Provider Entities (EAS).
- Managed cross-institutional collaboration initiatives to optimize comprehensive early childhood care and community development.

Social Technologist – Fundación EPM

Feb 2016 – Jan 2020 | Medellin, Colombia

- Managed and executed educational and cultural initiatives across Articulated Life Units (UVA).
- Coordinated high-impact social programs centered on active community participation across diverse target audiences.
